REMARKS

Applicants appreciate the early indication of allowability as to claims 1-20 of the application. Marked up changes to the drawings are submitted herewith for the Examiner's approval, showing the changes as required by the Examiner. In addition, corresponding changes have been made to the Specification, which are fully supported by the application as filed. No new matter is introduced by the changes to the drawings and the Specification herein. In particular the changes to portions of the Specification describing Figs. 3a and 5b are supported by the description accompanying Fig. 2a. In the case of Fig. 5b, the hardcopy drawing submitted herein shows the complete waveform which has not been altered from that in applicant's possession. The undersigned can only guess that the E-PAVE electronically scanned version might not have captured the entire sight area of the drawing out to the margins. The portion that appears not to have been captured in the E-PAVE version is redlined.

In view of the foregoing amendments and remarks, Applicants submit that the application is now in condition for immediate allowance. If for any reason the Examiner has any question regarding the content of this amendment or the allowability of the presently pending claims, he is respectfully requested to contact the Applicants' undersigned attorney at the telephone number indicated below.

It is believed that no fee is required upon filing this Amendment. However, if any fee is required, authorization is given to debit the Deposit Account No. 09-0458 of the Assignee for the amount due, and to credit any overpayment to the same account.

Respectfully submitted,

Hoki Kim et al.

In the Drawings

Marked up drawing sheets 1, 4, 6, and 7 showing redlined changes to FIG. 1a, 3a, 5a and 5b are submitted herewith for the Examiner's approval. Upon approval by the Examiner or on allowance of the application, new corrected final drawings will be submitted.
